Medical.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deepseated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass.
MOORE & CO.,
Corner of Yates and Langley Streets.

ENGLISH AND EUROPEAN NEWS.
THE MAIL.

A Paper containing the news, the principal leaders, a well-digested summary, and all interesting matter from The Times.

The Newspaper hitherto known as the Evening Mail, having become the property of the proprietors of The Times, IS NOW published twice a week, under the title of

THE MAIL,

At the Price of Threepence per copy as heretofore, or 8d a-week, post free.

The days of publication will be Tuesday and Friday, and each paper will contain the news and all matters of interest appearing in the three previous numbers of The Times, which will thus be rendered available, in a cheap and convenient form, for persons residing abroad or in the colonies.

Subscribers can obtain THE MAIL through Newspaper Agents, or may have it from the Publisher, on prepayment, at 17 Catherine House Square, London.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complains Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

In this class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediat relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safty—indeed, it has never been known to fail.

All Vrieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases which the human race is subject. They cannot be cured with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequntly creeps upon us by slight squeamishness or trifling jandice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment briskly electively over the pit of the stomach and eightitude where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piss, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowlge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect a cure without the annoyance of explaining their almost to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate, and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cur.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetoes	Fistulas,	Scurvy,
and Sand Flies	Gout,	Sore Heads,
Coco-bay,	Glandular Swellings,	Tumours,
Chiego-foot,	Lumbago,	Ulcers,
Chilblains,	Piles,	Wounds
Chapped Hands	Rheumatism,	Yaws;
Corns, (Soft)

"Sirius" on Confederation.

We promised, in a late issue, to turn our attention to the letter of "Sirius" that appeared in a previous number. Our leader on Thursday was virtually a reply; but in order that such errors as those put forth by "Sirius" to create, evidently a false impression on the public mind, respecting Confederation, may be directly refuted, we intend to fulfil our promise now. "Sirius" said that our article on the "Revenue and Expenditure of the Local Government under Confederation" "shows only one side of an account." He admits, therefore, "one side of the account." He admits that we have shown that the Colony under Confederation would have a Revenue of $326,000; a current Expenditure of $125,081; and a Surplus Revenue of $200,919. After making this admission, he says that it was "calculated to mislead or even to deceive the public." Now, is it not a most singular way to deceive the public by showing them that by making a contract with Canada containing certain covenants, they would have a Surplus Revenue of $200,919 instead of an annual Deficit? If we pointed out to one of our merchants, who had been doing business at a loss, how he could become a partner in an old established firm, and make thereby a clear profit of $200,919 a year, could any rational person say, truthfully, that we were "misleading or deceiving him? It would be a palpable absurdity to make such a charge of attempt at deception. We fear that if any attempt has been made to mislead or deceive the public, it has been made by "Sirius," either intentionally or unintentionally. "Sirius," after admitting "one side of the account," undertook to give the other side, that is, the Revenue that Canada would draw from the Colony. First, he says, that Canada would get $394,000 out of the $576,000, the estimated revenue of 1868. Knowing this statement was incorrect, he pushes it into print, with the qualification that he would put "it another way free from error." Now mark! the "free from error" way, he says, will give Canada only $365,000 out of the estimated Revenue of $576,000. Here is a difference between the first and last statement of $29 000. Why make an error of this kind? Was it to deceive or mislead? But his last statement is as great an error as the former. We have showed in our leading article day before yesterday, that in consequence of the Canadian Tariff being five per cent lower than ours, that Canada would derive from Customs only, $247,000, making, with the item of Postage, $262,058. Here there is an error in the second position of "Sirius," amounting to $102,942 too much. Not content, however, with mis-stating the Revenue that Canada would get from the Colony, he mis-states the Expenditure. He admits "one side of the account" based on the terms of the Convention, and gives the other side without any relation to those terms at all, or at least, so incorrectly as to amount to a change of the ground work of his argument. He says that the Canadian Expenditure for the Colony would amount to $203,100, only; whereas we have shown in our Thursday's leader, that the Expenditure of Canada on the terms of the Convention would be $521,713. The error therefore that "Sirius" makes, is only a diminution of the Expenditure to the extent of $318,613! Is such an error as this calculated to mislead or deceive the public? If it is not so calculated, what is? But as one error that would deceive and mislead the public was not sufficient, another is uttered as its effect. The last error places "Sirius" in a most ridiculous light before the public. He admitted in the outstart that we had shown "one side of the account," and that side showed a Surplus Revenue of $200,919, and yet by saying that Canada would draw a Revenue of $365,000 from the Colony, and only expend in it $203,100, he makes out that Canada would have a Surplus of $161,900. If we add the Surplus of the local Government, $200,919 to "Sirius'" Canadian Surplus of $161,900, we have a total of $362,819. The two governments would therefore have this large amount to divide between them, (without creating any new sources of Revenue). Notwithstanding the fact that "Sirius" has said that the paying off of "temporary loans" prevents money being "expended in Public Works," "Sirius'" conclusion is simply this: that we have not a dime; yet we have $362,819 Surplus Revenue; that we have a thing, and have it not at the same time; that this Colony has no Surplus Revenue now, but if she will only enter into partnership with Canada and divide up the present revenue, that British Columbia will have a Surplus of $200,919, and Canada a Surplus of $161,900; and that these dividends may be obtained by dividing nothing! "Sirius" however, not being content with perpetrating these "errors," he must try how better we would be off in a few years. He says that the loan of 1862 will be paid off in three years, and that there will then be a reduction of the Interest and Sinking Fund to the extent of $36,000 per annum. Suppose we admit it, but suppose we put the question of the payment of the public debt in the strongest way. Let us suppose that the whole Public Debt will be paid off in three years, and that will include the loan of 1862, what would be our financial position then on the terms of the Yale Convention? We have already shown that Canada at present would, by paying $150,037, the Interest and Sinking Fund on our Public Debt, make an annual Deficit of $257,405. Deduct the $150,037 from this amount, and the Canadian Deficit would be $107,368. We would still be the gainer to the extent of $107,368 per annum. But that is not all. The true financial position, assuming that the Public Debt was all paid off in three years, would be this: Canada would have to meet an annual Deficit of $107,368, and British Columbia would have her taxation reduced $102,942 per year, and have a Surplus Revenue of $200,919 besides. We think that we may safely conclude that if "Sirius" is the ablest champion of Anti-Confederation, the Anti-Confederates have a very poor cause indeed.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Eastern States.

PITTSBURG, Oct 5—The Democrats held an immense mass meeting here to-day, the procession was over two hours passing a given point. The business houses and residences along the route were profusely decorated with flags and Chinese lanterns, &c.

HARTFORD, Conn., Oct 5—This city gives 750 Democratic majority, a large gain over last fall. New Haven gives 199 Democrat majority which is a gain over last fall; but not over last spring.

The *Times*, a Democrat paper says, the scattering returns from various cities show large Democratic gains in the popular vote. The Republicans have lost one town to three gained.

NEW YORK, Oct 6—The *Express* says, the returns now indicate a Democratic majority in this State of over 5000 in November.

NEW YORK, Oct 6—A story was circulated in the gold room to-day that the Government was treating for the purchase of Cuba.

NEW YORK, Oct 5—The greatest mass meeting ever held in New York took place this evening at Tammany Hall. The Democratic procession had in its ranks 90,000, and exceeded ten miles in length. The air was literally ablaze with rockets, calcium lights, &c. Throng roughly estimated at 50,000, Gen. Baldy Smith presided.

CHICAGO, Oct 5—The latest reports from Connecticut deny that there have been any Democratic gains in the town elections yesterday. From the figures given it appears compared with the vote of last fall, that the Democrats made some gains as compared with the vote of last spring.

MONTGOMERY, Ala. Oct 6—The Governor has signed the registration bill. Both Houses have passed the bills providing for the election. The Senate bill makes it a misdemeanor for any person to challenge a vote. The Democrats strongly oppose the registration and election bills.

South America.

NEW YORK, Oct 6—The political affairs in Panama are still unsettled. Reports of a coming revolution were current, and several arrests had been made. The President had issued a proclamation stating that measures had been taken to keep the peace.

The news from the South American coast gives further accounts of the fearful ravages by the inundations and earthquakes Several vessels were damaged at Coquimbo, including the American ship Black Eagle. The residents of Valparaiso have raised $40,000 for the sufferers, and the Chilean Congress appropriated $50,000 for the same purpose.

The political affairs in Chile are unsettled. The victims in Peru will probably reach 2000. A change has taken place in the seacoast of Peru in consequence of the earthquake, the depth of water off the headland of Samana near Arica having been decreased to six or seven fathoms. The loss of lives in Equador will not be less than forty thousand.

Europe.

LONDON, Oct 5—The new deep sea submarine telegraph cable direct from Malta to Alexandria, Egypt, was successfully completed on Saturday.

California.

SAN FRANCISCO, Oct 7—Sailed, steamer Oriflamme, Bolles commander, for Portland.

HOLLOWAY'S PILLS.—Though good health is preferable to high honor, how regardless people often are of the former—how covetous of the latter! Many suffer their strength to drain away ere maturity is reached, through ignorance of the facility afforded by these incomparable Pills of checking the first untoward symptoms of derangement, and reinstating order without interfering in the least with their pleasures or pursuits. To the young especially it is important to maintain the highest digestive efficiency, without which the growth is stunted, the muscles become lax, the frame feeble, and the mind slothful. The removal of indigestion by these Pills is so easy, that none save the most thoughtless would permit it to sap the springs of life. 5

R P Rithet, draft horse
J E Edwards, brood mare
C A Gillingham, custard marrow squash
Wm Dalby, saddlery and harness
Jay & Bake, collection of Island-raised seeds
John Clayton, hothouse grapes

At half-past three Dr Tolmie, the President of the Society, ascended the band stand with the Chief Justice, and in an appropriate speech alluded to the re-establishment of the Society and the revival of the annual show, after an interval of three years. He expressed the satisfaction which the promoters felt at the manner in which their efforts at resuscitating the show, had been met by the community in general, and by the agriculturists of the Island and of the mainland, considering the shortness of the notice and the extreme dryness of the season, and after alluding briefly to the prospects of the improvement next year, wound up with a promise of $25 as a subscription; and after stating that there could be no difference of opinion as to the importance of such exhibitions in young colonies, he had much pleasure in introducing one who, himself neither a farmer nor an exhibitor, could more appropriately dwell upon that subject as well as upon the merits and demerits of the show than himself. He then introduced the Honorable Chief Justice Needham; who after congratulating his fellow-citizens upon the revival of this annual agricultural meeting, which he felt confident only required a fair support from the agriculturists and from the general public to make it an institution which would be of real good to the Colony; dwelt at some length upon the importance and utility of societies for the improvement of agriculture, which he characterized as the source of prosperity in all countries; he then proceeded to offer practical suggestions for the consideration of the public, in connection with the annual show of stock and produce, and also in regard to agriculture generally.

Mr Needham eloquently reminded his hearers of the necessity of laying the foundation of stability for the Colony by due attention to agriculture; assured them that without due regard being paid to this all important source of wealth, they could never rise to greatness; he next touched upon the practical assistance which might be given to the cause of agriculture by a systematic raising of subscriptions throughout the Island—pointing out the necessity of each one contributing according to his means, so that by the number of contributors a fund might be placed at the disposal of the Committee which would enable them to offer prizes which would induce producers to send the best stock and produce that they had to the show. There could be no excuse, said the Chief Justice, for farmers not producing grain and roots of a first-class quality. There was evidence in the produce yard of the great capability of the soil; the cereals which were exhibited would bear comparison with those exhibited in any part of the world; he instanced the weight of some Australian wheat, which took a prize at a late exhibition in England, which weighed two pounds less per bushell than did that produced in this Colony, and exhibited in this show. He was not there, he said to flatter exhibitors or those who had taken prizes, such flattery would be beneath his hearers and himself, he must, therefore, ask leave to speak without reserve. From what he had seen in the exhibition yards he had deduced a moral which he thought the agriculturists of the Island ought to take into their serious consideration, it would be for them to say whether he was right in his deductions. The Chief Justice then proceeded to say, in most forcible and eloquent language, that he could come to no other conclusion than that the farmers of the Island had not done by any means so much as they might have done, the excellence of the small quantity of produce exhibited showed that energy and perseverance would enable the farmers of this Island to produce crops as good as could be grown on any soil, but when he turned to the other yard he could not say that in the quality of the stock such as warranted any commendation. there did not appear to be the frame that was essential for excellence, nor were the size and shape of the cattle such as warrant the assumption that the farmers were doing what was in their power to obtain a proper kind of stock. There was really no excuse, he said, for being content with mediocrity when by combination amongst themselves, the stock-raisers of this Colony might obtain animals of a first class, kind from which they might improve the breed. It would be necessary for the farmers of the Colony to exert themselves to improve the character of the exhibition year by year if they wish to be successful, and one of the most prominent defects that had to be remedied was the character of the stock; when this was really improved, agriculture might flourish, but without proper attention it never could be really successful. The learned Chief Justice concluded an excellent speech by exhorting the farmers and horticulturists to emulate one another in striving to make next year's show, in every way, an improvement upon that of 1868

Some of the articles were sold by auction from the tables and fetched nice little prices, but we are sorry to say that others of them were taken away without the owners' permission.

FROM THE SANDWICH ISLANDS.—The barque Mauna Loa, Capt Reinking, arrived from Honolulu yesterday morning, having left the Islands on 3rd September. During the trip she experienced pleasant weather, with light winds, until reaching the coast of V I, on the 26th September, when it became thick and heavy, but without wind. She got into the Straits on 6th October; and night before, last anchored off Port Angelos, not knowing exactly where drifting to in the fog; yesterday she came up to her wharf under full sail. She reports trade somewhat dull at the Islands, and the earthquakes quiet, up to leaving. The vessel brings a small cargo—362 barrels of molasses, and twenty tons of salt. She will commence discharging this morning, and afterwards proceed to Burrard Inlet to load with lumber. Vessel and cargo are consigned to Janion, Rhodes & Co.

HANDSOME PRESENTS.—Mr James Christie, of Cariboo, has presented the Committee of the Mechanics' Institute with a beautiful model of a hoisting gear, as used in the mines of Cariboo, and which was lately exhibited at Yale. Accompanying the above is a very handsome case of specimens from different claims at Cariboo, collected by Dr Carrall, and which was also exhibited at Yale The above were forwarded by Mr J C Armstrong of Mosquito Creek, and the Committee of the Institute would also acknowledge the kindness of the Hudson Bay Company in forwarding the same, free of charge.

PROPER.—It will be satisfactory to the public to learn that the Stipendiary Magistrate, in connection with the City Corporation, is having a building arranged upon the Reserve, for such indians as are suffering from the prevailing epidemic. A nurse is also to be especially provided to attend on them

TELEGRAPH.—We are informed the line is in working order to Bellingham Bay; but the large party out at work between there and New Westminster are at present fire bound. It is the intention of the Company, if possible to complete the connection between those places in a few days.

SALE TO-DAY.—Messrs J P Davies & Co have an important sale at their cattle yard this morning of sheep, rams, mules, horses and heifers. Mr McKenzie's rams that took the prize at the exhibition on Thursday are to be sold, so that parties desirous of improving their stock would do well to attend.

FIRE.—The bell of the Union Hook & Ladder Co rang an alarm last night at half past seven; but on getting half way down Government street the companies returned to their quarters. It turned out to be the burning of some rubbish.

THE ship Chandler arrived in Royal Roads yesterday morning, from San Francisco, in ballast, on her way to Burrard Inlet to load with lumber.

THE steamer Enterprise left yesterday morning for New Westminster, with sixty or seventy tons of freight and a few passengers.

THE Sir James Douglas will leave for Nanaimo on Tuesday morning at the usual hour

Editorial Correspondence--No. 12.

NEW YORK, Aug 4, 1868.

Back again in this over crowded metropolis, with the weather at a white heat, and mosquitos and flies more mischievous and persistent in the presentation of their 'little bills' than an Island collector of bad debts. Have any of your readers ever passed a summer in New York City? If they have not, they have escaped a terrestrial glimpse of purgatorial horrors and should mentally resolve to steer clear of the American metropolis during the dog days. Sleep is out of the question. The most one can do in the heated term is to lie down—nor will he remain in a recumbent position long before he finds himself undergoing a hot bath in his own perspiration, paying tribute in a pint or two of sanguineous fluid to the numerous bloodsucking insects that infest this favored locality. Phew! The weather is not warm, it is positively *hot*. The thermometer scores 101° in the shade, and not a breath of air stirring. Scores of people are prostrated by strokes of the sun and many die, while the mortality lists have numerically doubled in consequence of the prevalence of zymotic complaints superinduced by the state of the atmosphere, and rabid dogs are accorded more than a fair share of the thoroughfares by the affrighted populace. New Yorkers apologize for the warm weather, and attribute its occurrence to various causes—the most prominent of which is the 'hurricane period' in the West Indies; but knowing ones assert that the present is no warmer than any preceding summer, and that the natural tendency of a New York summer is to roast, broil, grizzle or exterminate the inhabitants, who are advised by the daily press to 'keep cool' and 'worry through' till the fall as best they can. In its efforts to follow this advice New York resorts to some strange experiments. Arctic soda fountains are set up in every drug store, (and two or three drug stores are found on each square,) while ice cream saloons, and grog shops displaying tempting signs of 'Nice Cool Lager,' 'Sherry Cobblers,' and 'Claret Punches,' abound. The latest invention, though, of heated New York is iced coffee and tea. You enter a first-class restaurant and call for a cup of coffee or tea; the article is served boiling hot and a small plate with lumps of ice accompanies it; you take a lump or two of the congealed hyperborean and dropping it into the cup proceed to quaff the liquid. The effect is pleasant and the drink, being neither cold nor hot, but a sort of 'arf-an-arf,' is quite reviving. If you are troubled with a 'heated term' at Victoria, try the effect of a lump of ice in your matutinal or postprandial beverage.

Writing of drinks reminds me of the reduction in the whiskey tax from two dollars per gallon to fifty cents. It was found that under the higher rates, inducements were held out to the unprincipled to evade the payment altogether, and it was mentioned during the debate in Congress, to show how almost imperative the tax had become—that notwithstanding the tax on whiskey was $2 per gallon, the article could be bought anywhere in New York for $1 87½ per gallon! The liquor sold here is of the most villainous description. The best 'imported' brandy has a bluish hue, strongly suggestive of the employment of blue-vitrol in its manufacture, and the whiskey is such horrid sharp stuff that a glass of it has been known to burn its way right through a man and come out at his boot heel within five minutes after being swallowed! The reduction in the tax, it is hoped, will ensure the country good whiskey, even if it fails to cure imported, brandy of the fit of the blues with which it is afflicted. I observe by the papers of to-day that the Franco-American Cable Company has been fully organized, and is preparing for active operations. It is expected when the new cable shall have been laid that a considerable reduction in the tariff will be effected. It is also proposed to make the passage from London to the United States by a 'short cut' *via* the Atlantic telegraph cable route, The idea is to make the passage from London to New York regularly in a week, with only one hundred hours on the ocean. The Irish railway to Killarney could easily be extended to Valentia. Thence could run in a little over four days' time, first-class steamers to St Johns, Newfoundland. Thence passengers and mails could be conveyed by rail and boat to the eastern terminus of the Grand Trunk railway, whence they could find speedy conveyances for New York and the entire continent. This would be an expeditious route, though a very wearisome one considering the number of changes from boat to rail, and *vice versa*, en route. Many people, however, would be charmed with it on account of the brevity of the sea voyage Four days on the Atlantic would simply be a novelty, and therefore thousands of people might be tempted to roam to another hemisphere who are deterred now by a wholesome fear of a prolonged interview with papa Neptune. And in this connection it is important that I should mention that at Portland, Maine, to-day, an International Commercial Convention commenced its sittings, the proceedings of which may have a more important bearing upon the future of our lovely and promising young Colony than some of your readers imagine. The eastern, northern, western, and north-western States and the New Dominion will all be ably represented in the Convention. The measures that are proposed to be discussed embrace a large field. Briefly, action is to be taken for the purpose of securing a line of railway across the continent at its widest part, from the Atlantic to the Pacific seas, connecting Halifax, Portland, Rutland, Buffalo, Detroit, Chicago and San Francisco in an unbroken line. *and the completion of a direct line from the St Lawrence waters to Puget Sound;* the adjustment on liberal terms of the regulations of trade on the continent of North America, and such arrangement of lines of ocean steamers, sailing at fixed hours daily from each side of the Atlantic Ocean, and between China and San Francisco, as shall secure lines of communication by this route between Europe and Asia, as regular and as convenient as those now existing between city and city on the same continent, on the completion of the lines of railway now built, in progress or proposed, between the eastern shore of the Atlantic and the harbor of San Francisco. The project of securing a direct line of railway from Halifax to San Francisco, is perhaps the most important, diverting as it is believed, transatlantic travel from ocean navigation to railway transit. The distance between these two points is 3 988 miles, and it is estimated that the number of through passengers yearly from Portland to Halifax would not be less than 50,000. The Portlanders are greatly interested in this matter, and more especially because her citizens desire that their city shall become the outlet of our Western granaries. For some months past they have been endeavoring to concentrate public attention upon their unrivaled harbor, as the cheapest point for the exportation of Western produce, and the advantages of a direct line of railway across the continent. Large subscriptions have already been secured to the company by municipal corporations and individuals in Northern New Hampshire and Vermont, while the city of Portland has authorized a subscription of $750,000 to its stock. The friends of the project believe that by extending a line due west from Portland to Whitehall, and from thence to Rome on the line of the New York Central Railroad, the distance from Chicago to Halifax can be reduced to about 1600 miles, over favorable grades, easily condensing the time between Chicago and Liverpool to twelve days, and reducing the transit between San Francisco and London to seventeen days by way of Halifax and Liverpool.

The canvass for the Presidential election proceeds with as much vigor as could be expected considering the warm weather. Grant and Colfax resolutely decline to make speeches—the first because he can't, and the other because he is afraid to say too much. Seymour remains quietly at home, but Blair is out West and never misses an opportunity to speak to the crowds that assemble to greet him at the railroad depots. The partisan press is exceedingly bitter in tone, and both sides threaten revolution or repudiation if the 'other' is successful. In the meantime gold is rising (closing now at 145½) and the National securities are falling in London money markets.

The public debt statement for the month of July will show an increase of several millions of dollars since the last statement issued on the 31st of May. On the 1st of july $28 000,000 in coin to pay the semi-annual interest on the 5-20's and bonds of 1881, and over $7,000,000 to pay the principal and interest on the bonds of 1848 was taken from the vaults of the Treasury; hence the amount of coin on hand is much less. The receipts from internal revenue were heavy during the months May and June, caused by the payment of the income tax, but were much much less in July, while the customs receipts were about the same as usual. On the 31st of May the debt was $2 510,245 886 74, and it is thought, when all returns are in, the increase will not exceed five or six millions of dollars.

Affairs in the Dominion move along favorably. The Premier has gone to Nova Scotia to hold out the olive-branch to the disaffected Bluenoses, and Joe Howe is said to have accepted it and also a seat in the Cabinet. At any rate, you may be sure there will be neither secession nor attempt at secession on the part of the Nova Scotians, and you may be equally certain that before the lapse of a twelve month, both Prince Edward's Island and Nova Scotia will be found knocking at the door of the Confederacy. Such, at least, is the belief of the best informed citizens of the maritime Provinces whom I have met with here. The New York *Herald* humorously says of the Nova Scotia tempest: "Sound and fury, signifying nothing—the continued fuss of the Nova Scotians in opposition to their absorption in the New Dominion. It is all a waste of indignation. Let the enraged Nova Scotians cultivate a little patience and in good time 'manifest destiny' will settle all their troubles, or let them consult Mr Seward on the subject if they are ready to sell out at a bargain."

The same journal says of the late Southern Chief: "Jeff Davis has gone to Europe, and it is to be hoped, may be permitted indefinitely to stay there. We cannot afford to condemn, still more to execute, the man who was the incarnation of the Southern spirit with the country now ready to divide between parties as to the final result of the war. Congress has voted the money to pay his captors, and now let him go."

Absinthe green is the latest fashionable sensation Absinthe is a liquor, I may say, a rapping spirit, for it knocks people down or it turns men into simpletons. Does spiritism do more? The color of the thing, ladies, is neither a pea, grass, sea nor Metternich green; it is a yellowish sickly looking hue, and it is to be honored with Brussels, and is to flaunt about on parasols. Out-of-door dresses grow shorter and shorter, and in-door dresses longer and longer. Drawing-room dresses are gored in front and worn sufficiently short to allow the dainty little foot to peep out like a mouse from its biding place, while behind, the dresses are cut full with immense trains, the length being regulated by the length of purse of the wearer. Some of these trains are fully a yard long.

To Self Reliance.

EDITOR COLONIST,—If I had any doubts about the quarter from which Self Reliance hailed, my doubts would have been dispelled by the length of time which he takes to make his promised return ready—'it is in course of preparation,' what a stereotyped official expression. How long a time do you intend to allow to Mr Self Reliance? If his statements were true, a-half hour would have sufficed to make out the tabular list of his proofs; if incorrect, a year will not make them true.

Victoria Nursery and Seed Establishment.

MITCHELL & JOHNSTON,

Nursery & Seedsmen, Florists, Garden Architects & Landscape Gardeners.

Gardens, Orchards, Ornamental Grounds, &c., laid out and Planted.

Greenhouses Built and Heated on Latest Approved Principles.

Drawings, Specifications and Estimates Prepared.

OUR MR MITCHELL'S MODE OF constructing Horticultural Erections is highly spoken of by the late Dr Lindley in a leader of the Gardener's Chronicle for 1857. He sums up thus:—"It seems to us that we have here an improvement introduced into construction, which is second only to that which followed the introduction of hot water pipes."

McIntosh in his "Book of the Garden," highly approves his improved method of tank heating.

Orders left at the Office will receive immediate attention. se26

EXTRAORDINARY CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle and, when going to bed at night took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,
WM. BOARDS.

"To Mr. Thos. Powell."

POWELL'S BALSAM OF ANISEED,

For Coughs, Colds, Influenza, Shortness of Breath, Asthma, Bronchitis, and for all affections of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonies, has induced the Proprietor to still further extend the beneficial results of its use; and he begs to announce that he is now introducing its sale into Victoria, B. C., and has appointed Messrs Millard and Beedy, Wharf Street, Victoria, Wholesale Agents, through whom Chemists and Storekeepers can obtain their supply.

The Price is within the means of all classes.

Established 1824.

Prepared and Sold by THOMAS POWELL, 16, Blackfriars Road, London. Sold in bottles, by all Chemists and Patent Medicine Vendors throughout the World.

IMPORTANT CAUTION.—Observe that the Words, "THOMAS POWELL, Blackfriars Road London," are engraved on the Government Stamp, affixed over the top of each Bottle, without which, none can be genuine.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the arstocracy and fashionable world on account of the superior articles for the toilet each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNONA ODORATISSIMA and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BEAU MONDE to try as a handkerchief perfume.

THE EXTRACT OF YLANGYLANG
AND
THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Messrs Rigaud and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention the

Ess Bouquet	Wood Violet	Mignonette
Jockey-Club	Marechale	Jessamine
New Mown Hay	Mousseline	Magnolia
Field Flowers	Rondeletia	Maréchale

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing perfume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk bath, and is all that can be desired as a perfume.

DENTORINE
AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWR

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously perfumed.

Premium Purchasers of Two Articles of RIGAUD & CO., are entitled to receive Gratuitously the

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co,** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Indigestion, Dyspepsia,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules more chronic cases.

GENERAL DEPOTS:

In Victoria—Messrs. LANGLEY & CO.

In Paris—At Grimault & Co.'s 45 Rue Richelieu.

GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, Pad.; Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are carefor, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused ideas, defective memory, timidity, want of confidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions or use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.

Remember to put BOX 252 on the letter.

Consultations FREE.

☞ Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.
